Unemployed jobseekers by gender and age-group

UNEMPLOYED JOBSEEKERS
by gender

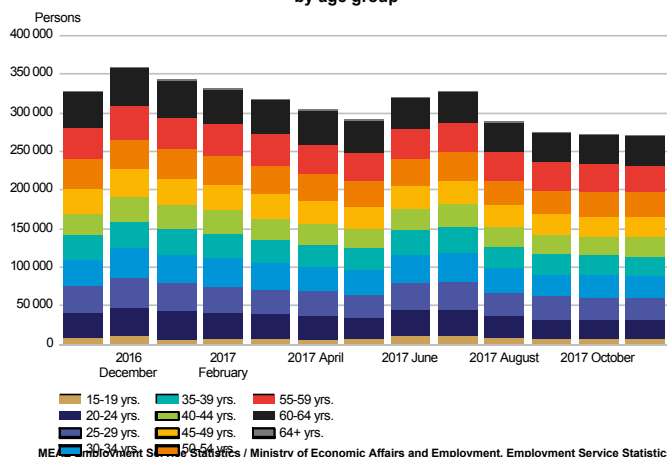

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased more among men than women

Of the unemployed jobseekers, 150,000 (55%) were men and 121,300 (45%) were women, indicating an increase of 2,200 for men and a decrease of 3,400 for women from the figures for October. Compared with November a year ago, the unemployment among men decreased by 33,300 (-18%) and among women by 23,900 (-16%).

UNEMPLOYED JOBSEEKERS
by age group

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

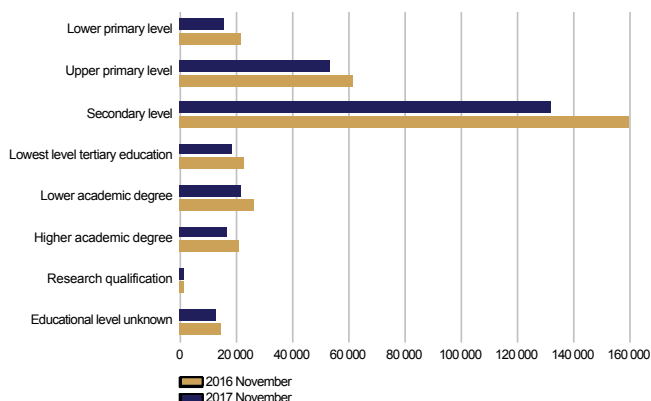

Unemployment decreased in all age groups

At the end of November, unemployed jobseekers under 25 years of age numbered 32,000, representing a decrease of 8,200 from November a year ago. Youth unemployment decreased from October by 400. For those under 20, the number of unemployed was 6,800. Among those over 50, the number of unemployed was 106,100, representing a decrease of 19,800 on the year before. Among those over 55, the number of unemployed was 74,500, representing a decrease of 13,900 on the year before.

Unemployed jobseekers by levels of education and occupational group

**UNEMPLOYED JOBSEEKERS
by level of education**

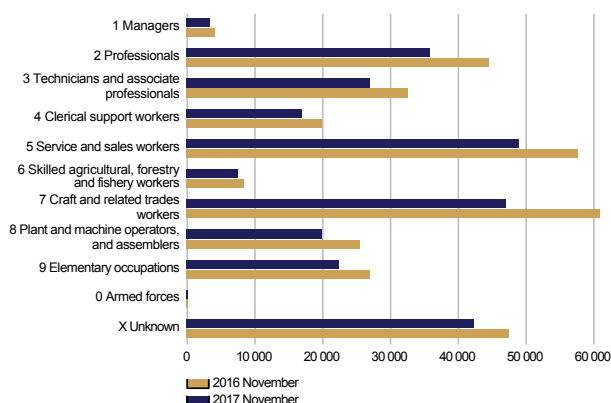

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased at all levels of education

Examined by level of education, unemployment decreased from November last year at all levels of education; the decrease was greatest among those with lower level basic qualifications (-28%), higher-degree level tertiary education (-20%), lowest level of tertiary education (-19%), lower-degree level tertiary education (-18%) and doctorate or equivalent level tertiary education (-18%).

**UNEMPLOYED JOBSEEKERS
by occupational group**

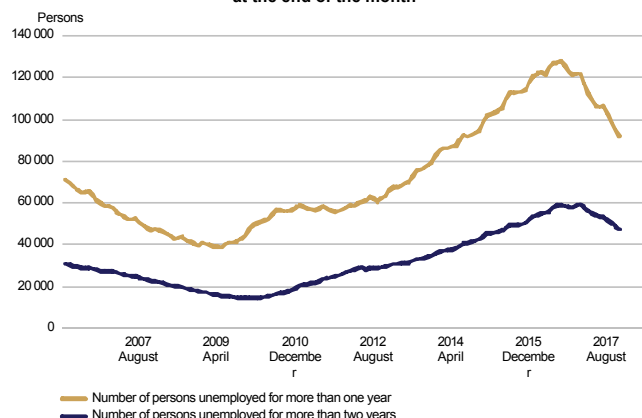

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased in all occupational groups

Examined by occupation, unemployment decreased in all groups from November last year; the most in the groups of craft and related trades workers (-13,900), professionals (-8,800) and service and sales workers (-8,700).

**LONG-TERM UNEMPLOYED
at the end of the month**

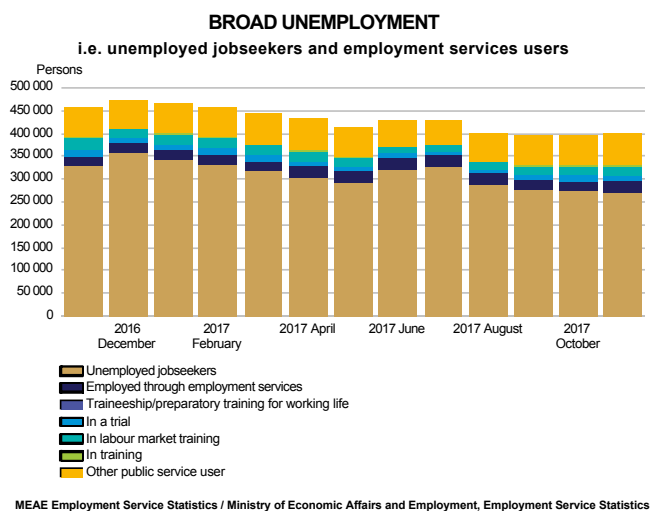

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Em

Decrease in long-term unemployment

At the end of November, the number of long-term unemployed who had been unemployed without interruption for more than a year amounted to 91,800, down 29,700 from the previous year. Of the long-term unemployed, 52,600 were men and 39,200 were women. The number of men decreased by 18,000 (-26%) from the previous year and the number of women by 11,700 (-23%). Long-term unemployed who had been unemployed without interruption for more than two years numbered 47,600, which is 10,200 less than a year ago.

Services

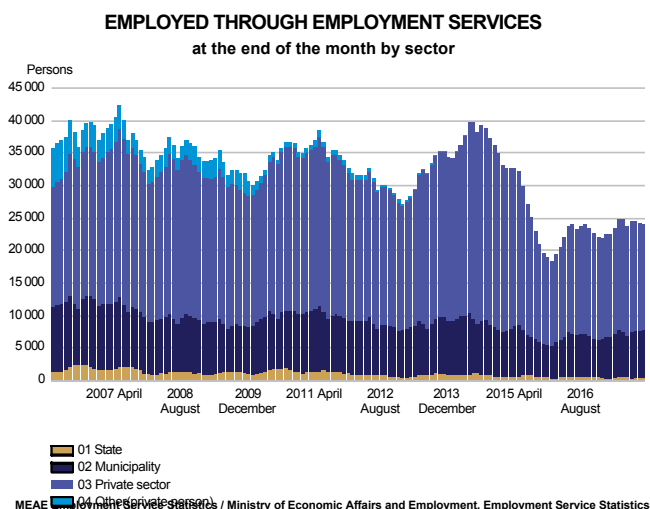

Decrease in the number of persons covered by services

At the end of November, the number of persons covered by services included in the activation rate amounted to 127,600, down 1,800 on the previous year. Compared with October, the number of persons covered by such services increased by 2,000. The activation rate at the end of November was 32.0%, which is 3.7 percentage points higher than a year earlier. In all, 4.8% of the labour force were covered by these services.

Of those covered by services, the number of men was 61,000, down 500 on the previous year. The number of women covered by these services was 66,600, down 1,300 on the previous year.

Broad unemployment, or the total number of unemployed jobseekers and those covered by services, was 398,900 at the end of November. This is 59,000 less than a year earlier. The decrease in broad unemployment was due to a decrease in the number of unemployed jobseekers and those covered by services.

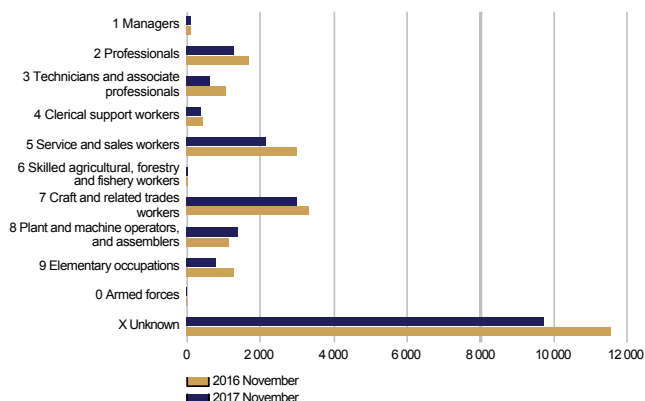

The number of placements increased in local government and the private sector

At the end of November, the number of persons claiming pay subsidies, employed by the State or receiving start-up grants totalled 24,100, which is 1,300 more than the year before. Of those employed, 2% were in government jobs, 30% in local government jobs and 68% in the private sector. Since November last year, the number of placements has decreased by 23% in government jobs and increased by 1% in the private sector and by 20% in local government jobs. Of those employed, 50% were men. Placements for men increased by 400, and those for women by 900 from the previous year.

Labour market training, training and self-motivated studies

PERSONS IN LABOUR MARKET TRAINING
in target profession at the end of the month

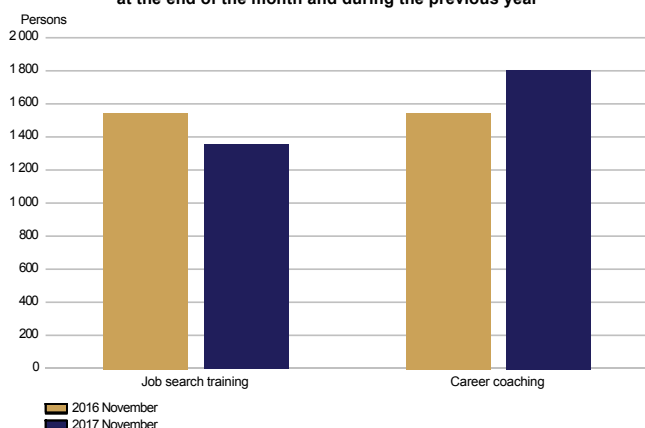

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of persons in labour market training decreased

At the end of November, labour market training was attended by 19,400 students, down 4,300 on the previous year. Of the students, 10,100 were men and 9,300 were women. Compared to the situation a year ago, the number of men decreased by 2,100 and the number of women by 2,200. During November, 4,900 new students began labour market training, representing a decrease of 100 on the year before.

Based on target occupation, the largest subgroup within the category of 'unknown' were people in integration training (8,800), which is 500 less than the year before. In November, the number of people without a specified target occupation was 100, which is 800 less than in November last year.

IN TRAINING
at the end of the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of persons in training increased

At the end of November, 3,200 persons were in training, which is 100 more than the year before. The number of men in training was 1,500 and of women 1,600. Career coaching had 1,800 participants, which is 300 more than a year earlier. The number of participants in job search training decreased by 200 from the previous year.

IN SELF-MOTIVATED STUDIES
in person's profession at the end of the month

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of people in self-motivated study increased from the previous year

Self-motivated studies supported by unemployment benefits were attended by a total of 41,100 people, representing an increase of 2,400 on the year before. The number of men receiving unemployment benefits for studies was 17,100, up 1,700 on the previous year. Among women, the number was 24,000, representing an increase of 700 on the year before. Occupation was undetermined in case of 9,700 persons in the group of 'unknown', up 1,600 on the previous year.

Job alternation, rehabilitative work and trials

AS A JOB ALTERNATION SUBSTITUTE
at the end of the month and during the previous year by sector

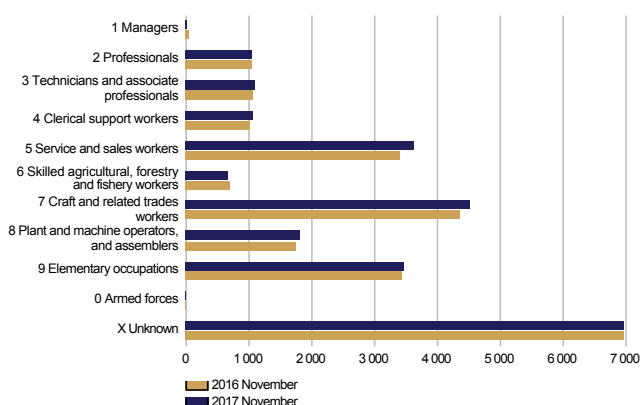

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of job alternation substitutes decreased

A total of 3,200 persons were job alternation substitutes at the end of November, which is 900 less than a year earlier. Of the substitutes, 1,000 were men and 2,100 were women. The number of men decreased by 300, and the number of women by 600.

REHABILITATIVE WORK ACTIVITIES
at the end of the month and during the previous year

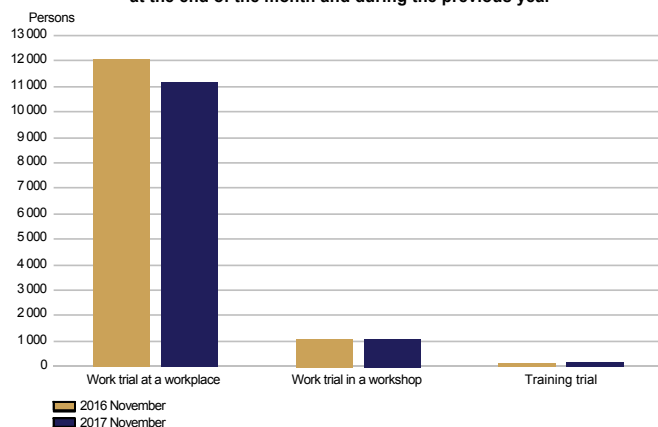

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

More participants in rehabilitative work activities than in the previous year

A total of 24,300 persons participated in rehabilitative work activities at the end of November, which is 500 more than a year earlier. Of the participants 13,700 were men and 10,600 were women. Compared to the situation a year ago, the number of men increased by 200 and the number of women by 300.

IN TRIALS
at the end of the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

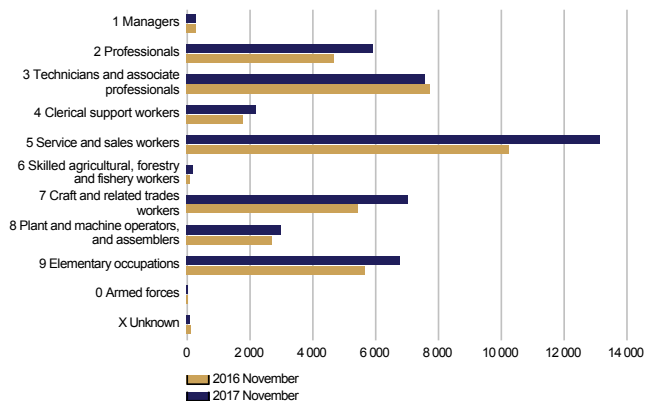

Participation in work and training trials decreased

Work and training trials had a total of 12,400 participants at the end of November, which is 900 less than the year before. Of the participants, 5,400 were men and 7,000 were women. The number of men decreased by 400 from the previous year and the number of women by 500.

Jobs vacant

NEW JOB VACANCIES
during the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Increase in the number of new vacancies

The number of new vacancies reported to Employment and Economic Development Offices during November totalled 46,000, which is 7,300 more than in November last year. In all, the number of unfilled vacancies at Employment and Economic Development Offices amounted to 85,500 in November, which is 16,500 more than a year ago. A total of 8,900 of these vacancies were filled during November, 4,300 of them through Employment and Economic Development Offices. A total of 36,300 vacancies were closed for applications because the application period had ended or because there was a sufficient number of applicants. In addition, a total of 2,100 vacancies were cancelled and 1,700 vacancies could not be filled. The number of vacancies remaining unfilled at the end of November was 37,500, up 7,400 on the previous year.

The number of new vacancies had increased for eight occupational groups; the greatest increases were in the groups of service and sales workers (2,800), craft and related trades workers (1,600), professionals (1,200) and elementary occupations (1,100). The number of new job vacancies had decreased in the category of technicians and associate professionals (-200) and 'unknown' (-20).

Information about the website

On this website you will find the latest statistics from the Ministry of Economic Affairs and Employment's monthly Employment Bulletin. You can access a .pdf version of the current and previous months' Employment Bulletin by following the link on the right. The Employment Bulletin is based on the data from the MEAE's Employment Service Statistics. The Ministry of Economic Affairs and Employment compiles statistics on the clients of the Employment and economic development offices (TE offices), including registered job-seekers, labour market policy services, and job vacancies reported to TE offices by employers. The data is collected from the customer service registry (URA) used by the TE offices. This means that the data used by MEAE Employment Service Statistics is completely registry-based. The statistical data covers all persons, services, and open vacancies in the aforementioned groups, as separately defined in the registry by the classifications and variables for the statistical period in question. The figures also include registered jobseekers who are taking part in local government trial schemes for promoting employment.

Owing to seasonal variations, the Employment Bulletin always includes a comparison with the corresponding month in the previous year. The descriptors used in the Bulletin are also available in a table format. The Employment Bulletins are published at the end of the subsequent calendar month. The official date of publication is announced in advance.
