

Employment Bulletin

February 2022

In February, 265,600 unemployed jobseekers

At the end of February, a total of 265,600 unemployed jobseekers were registered at the Employment and Economic Development Offices and municipalities participating in the local government pilots on employment. This is 61,500 less than a year earlier, but 17,400 more than in February two years ago. The number of unemployed jobseekers was down by 8,100 from the previous month. Unemployed jobseekers accounted for 10.1% of the labour force, which is 2.3 percentage points less than the year before. The figures are from the Employment Service Statistics of the Ministry of Economic Affairs and Employment.

Trends:

- Total number of all jobseekers decreased by 103,300
- The number of unemployed jobseekers decreased by 61,500 from the previous year
- The number of people fully laid off decreased by 28,800
- Services included in the activation rate had 3,800 less people than a year ago
- 43,800 more new job vacancies compared to the previous year

All jobseekers

The total number of jobseekers decreased

At the end of February, the number of jobseekers registered at the Employment and Economic Development Offices and municipalities participating in the local government pilots on employment totalled 560,000, down 103,300 on the previous year. Of the jobseekers, 285,400 were men and 274,600 were women. Compared to the situation a year ago, the number of men decreased by 56,700 and the number of women by 46,500. Of the jobseekers, 238,000 were customers of municipalities participating in the local government pilots on employment.

Of the jobseekers, 182,900 were employed, 161,800 of them were on the open labour market and 21,100 were employed through the services organised by the employment and economic development administration and local government pilots on employment. The number of jobseekers outside the labour force was 103,000, of whom 25,400 were in services promoting employment and 59,300 in training. Of the jobseekers, 265,600 were unemployed jobseekers, which is 61,500 less than the year before. In February, 26,800 of unemployed jobseekers were fully laid off, which is 2,300 less than in January. The number of people fully laid off decreased by 28,800 from February a year earlier. Furthermore, jobseekers on a reduced working week numbered 8,500, representing a decrease of 8,500 from the year before.

Unemployed jobseekers

Decrease in unemployed jobseekers in February

At the end of February, the number of unemployed jobseekers registered at the Employment and Economic Development Offices and municipalities participating in the local government pilots on employment totalled 265,600, down 61,500 on the previous year. Compared with January, the number of unemployed jobseekers decreased by 8,100. Of the unemployed jobseekers, 140,800 were customers of municipalities participating in the local government pilots on employment. The number of new job searches among unemployed jobseekers totalled 10,700 in February, down 1,500 from February a year ago. In February, the number of starting periods of unemployment totalled 30,600, representing a decrease of 8,100 on the year before. The number of starting periods of unemployment decreased by 17,700 from January. The number of starting periods is always greater than the number of job searches because new unemployment periods are also registered from the existing groups of jobseekers.

The number of foreign citizens among unemployed jobseekers totalled 29,900, down 4,800 from February a year ago. Of these foreign unemployed jobseekers, EU/EEA citizens accounted for 9,400 at the end of February, down 2,400 from the year before.

In February, 26,800 of unemployed jobseekers were fully laid off, which is 2,300 less than in January. The number of people fully laid off decreased by 28,800 from February a year earlier. In February, the number of job searches among those fully laid off totalled 2,600, representing a decrease of 1,300 on the year before. The number of starting periods of full lay-offs was 7,800, down 4,700 from February a year ago. The number of starting periods of full lay-offs decreased by 6,700 from January. The number of people fully laid off decreased in all occupational groups, with the exception of armed forces. The greatest decreases were in the groups of service and sales workers (-6,200), craft and related trades workers (-5,900), 'unknown' (-4,700), technicians and associate professionals (-2,800), and plant and machine operators, and assemblers (-2,600).

Unemployed jobseekers by region

UNEMPLOYED JOBSEEKERS

by Centre for Economic Development, Transport and the Environment (ELY)

Unemployment decreased in the areas of all ELY Centres

Compared to the same period in the previous year, the number of unemployed jobseekers decreased in February in the areas of all Centres for Economic Development, Transport and the Environment (ELY Centres); the most in Ostrobothnia (-27%), Pirkanmaa (-22%), Lapland (-22%) and Satakunta (-21%). The number of unemployed jobseekers decreased the least in South Savo (-12%), Central Finland (-13%), North Karelia (-15%), Häme (-15%) and Kainuu (-15%). The number of unemployed jobseekers fell the most in Åland, by 37%. Compared with January, the number of unemployed jobseekers decreased in the areas of all ELY Centres; the most in Kainuu (-5%), Pirkanmaa (-4%), North Karelia (-4%), Southeast Finland (-4%) and South Savo (-4%). The number of unemployed jobseekers grew only in Aland (1%) from the previous month.

Unemployed jobseekers by gender and age-group

Unemployment decreased more among women than men

Of the unemployed jobseekers, 155,300 (58%) were men and 110,300 (42%) were women, indicating a decrease of 3,900 for men and 4,200 for women from the figures for January. Compared with February a year ago, unemployment decreased by 35,200 (-18%) among men and by 26,300 (-19%) among women.

Unemployment decreased in all age groups

At the end of February, unemployed jobseekers under 25 years of age numbered 28,200, representing a decrease of 10,700 from February a year ago. Youth unemployment fell by 1,800 from January. For those under 20, the number of unemployed was 5,000. Among those over 50, the number of unemployed was 103,300, representing a decrease of 16,700 on the year before. Among those over 55, the number of unemployed was 76,000, representing a decrease of 8,500 on the year before. Unemployment decreased the most among those under 30 (-25%) and those between 50 and 54 (-23%). Unemployment decreased the least among those over 59 (-3%). Compared with January, unemployment decreased in all age groups; the most among those under 25 (-6%).

Unemployed jobseekers by levels of education and occupational group

Unemployment decreased at all levels of education

Examined by level of education, unemployment decreased from February last year at all levels of education; the decrease was greatest among those with lower-degree level tertiary education (-24%), post secondary non tertiary education (-22%) and lowest level of tertiary education (-21%). Unemployment fell the least among those with level of education 'unknown' (-11%), doctorate or equivalent level tertiary education (-13%) and higher level basic qualifications (-13 %).

UNEMPLOYED JOBSEEKERS by occupational group

Unemployment decreased in all occupational groups

Examined by occupation, unemployment decreased in all groups from February last year; the most in the groups of service and sales workers (-13,400), craft and related trades workers (-12,500), 'unknown' (-7,600), professionals (-6,400) and technicians and associate professionals (-6,100). Unemployment decreased the least in the occupational groups of armed forces (-40), managers (-700) and skilled agricultural, forestry and fishery workers (-900).

LONG-TERM UNEMPLOYED at the end of the month

120 000 100 000 80.000 60 000 40 000 20 000 Number of persons unemployed for more than one year

Increase in long-term unemployment

At the end of February, the number of long-term unemployed who have been unemployed without interruption for more than a year amounted to 103,800, up 7,700 on the previous year. Of the long-term unemployed, 62,400 were men and 41,400 were women. The number of men increased by 4,600 (8%) from the previous year and the number of women by 3,200 (8%). The number of long-term unemployed who had been unemployed without interruption for more than two years numbered 52,200, which is 13,700 more than a year ago.

Services

Decrease in the number of persons covered by services

At the end of February, the number of persons covered by services included in the activation rate amounted to 111,400, down 3,800 on the previous year. Compared with January, the number of persons covered by such services increased by 2,500. Of those covered by services, 61,300 were customers of municipalities participating in the local government pilots on employment. The activation rate at the end of February was 29.6%, which is 3.6 percentage points higher than a year earlier. In all, 4.0% of the labour force were covered by these services.

Of those covered by services, the number of men was 52,900, down 1,900 on the previous year. The number of women covered by these services was 58,600, down 1,900 on the previous year.

Broad unemployment, or the total number of unemployed jobseekers and those covered by services, was 377,000 at the end of February. This is 65,300 less than a year earlier. The decrease in broad unemployment was mainly due to a decrease in the number of unemployed.

EMPLOYED THROUGH EMPLOYMENT SERVICES

03 Private sector
 04 Other(private person)

The number of placements increased in all sectors

At the end of February, the number of persons claiming pay subsidies, employed by the State or receiving start-up grants totalled 29,000, which is 5,200 more than the year before. Of those in placements, 1% were in central government jobs, 26% in local government jobs and 73% in the private sector. Since February last year, the number of placements has increased by 25% in local government jobs, by 21% in the private sector and by 3% in central government jobs. Of those in placements, 52% were men. Placements for men increased by 2,900, and those for women by 2,300 from the previous year.

Labour market training, training and self-motivated studies

PERSONS IN LABOUR MARKET TRAINING

in target profession at the end of the month

Number of persons in labour market training decreased

At the end of February, labour market training was attended by 21,100 students, down 1,700 on the previous year. Of the students, 10,200 were men and 10,900 were women. The number of men decreased by 600, and the number of women by 1,100 from February last year. During February, 3,900 new students began labour market training, representing a decrease of 1,200 on the year before.

Based on target occupation, the largest subgroup within the category of 'unknown' were people in integration training (6,600), which is 600 less than the year before.

IN TRAINING

at the end of the month and during the previous year

The number of persons in training decreased

At the end of February, 1,300 persons were in training, which is 2,100 less than the year before. Of those in training, 600 were men and 700 were women. Career coaching was provided to 900 participants, which is 1,900 less than a year earlier. The number of participants in job search training decreased by 200 from the year before.

IN SELF-MOTIVATED STUDIES

in person's profession at the end of the month

The number of people in self-motivated study decreased from the previous year

Self-motivated studies supported by unemployment benefits were attended by a total of 31,000 people, representing a decrease of 3,600 on the year before. The number of men receiving unemployment benefits for studies was 11,900, down 2,100 on the previous year. Among women, the number was 19,100, representing a decrease of 1,600 on the year before. Occupation was undetermined in case of 9,200 persons in the group of 'unknown', down 900 on the previous year.

Job alternation, rehabilitative work and trials

AS A JOB ALTERNATION SUBSTITUTE

at the end of the month and during the previous year by sector

The number of job alternation substitutes increased

A total of 3,500 persons were job alternation substitutes at the end of February, which is 400 more than a year earlier. Of the substitutes, 1,200 were men and 2,300 were women. The number of both men and women increased by 200 from the previous year.

REHABILITATIVE WORK ACTIVITIES

Fewer participants in rehabilitative work activities than in the previous year

A total of 19,400 persons participated in rehabilitative work activities at the end of February, which is 1,800 less than a year earlier. Of the participants 10,900 were men and 8,500 were women. The number of men decreased by 1,100 and the number of women by 700 from the previous year.

IN TRIALS at the end of the month and during the previous year

Persons

Participation in work and training trials decreased

Work and training trials had a total of 6,100 participants at the end of February, which is 300 less than a year earlier. Of the participants, 3,000 were men and 3,100 were women. The number of men decreased by 100 and the number of women by 200 from the previous year.

Information about the website

On this website you will find the latest statistics from the Ministry of Economic Affairs and Employment's monthly Employment Bulletin. You can access a .pdf version of the current and previous months' Employment Bulletin by following the link on the right. The Employment Bulletin is based on the data from the MEAE's Employment Service Statistics. The Ministry of Economic Affairs and Employment compiles statistics on the clients of the Employment and economic development offices (TE offices), including registered job-seekers, labour market policy services, and job vacancies reported to TE offices by employers. The data is collected from the customer service registry (URA) used by the TE offices. This means that the data used by MEAE Employment Service Statistics is completely registry-based. The statistical data covers all persons, services, and open vacancies in the aforementioned groups, as separately defined in the registry by the classifications and variables for the statistical period in question.

Owing to seasonal variations, the Employment Bulletin always includes a comparison with the corresponding month in the previous year. The descriptors used in the Bulletin are also available in a table format. The Employment Bulletins are published at the end of the subsequent calendar month. The official date of publication is announced in advance.
