

Employment bulletin

January 2016

In January, the number of unemployed jobseekers was 368,100

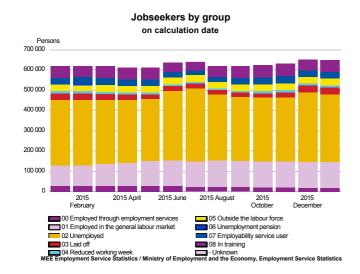

MEE Employment Service Statistics / Ministry of Employment and the Economy. Employment Service Statistics

A total of 368,100 unemployed jobseekers were registered at the Employment and Economic Development Offices at the end of January. This is 8,500 more than a year earlier. The number of unemployed jobseekers decreased by 9,800 from the previous month. The share of the unemployed jobseekers out of labour force was 14.0% which is 0.3 percentage points more than a year earlier. The figures are from the Employment Service Statistics of the Ministry of Employment and the Economy.

Trends:

- The total number of jobseekers increased
- The number of unemployed jobseekers increased by 8,500 compared to the year before
- Services included in the activation rate had 7,000 people less than a year ago
- The number of new job vacancies decreased by 1,000 compared to a year ago

All jobseekers

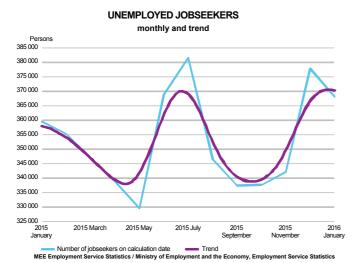

The total number of jobseekers increased

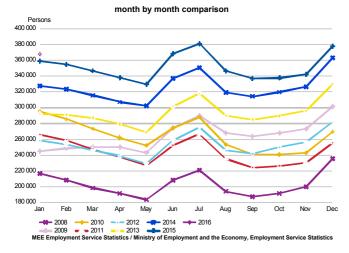

At the end of January, the number of unemployed jobseekers registered at the Employment and Economic Development Offices totalled 650,600, up 32,000 on the previous year. Of the jobseekers, 341,000 were men and 309,600 were women. Compared to the situation a year ago, the number of men increased by 13,100 and the number of women by 18,900.

Of the jobseekers, 145,400 were employed, 126,700 of them were on the open labour market and 18,600 were employed through the services of the employment and economic development administration. The number of jobseekers outside the labour force was 126,300, of whom 33,200 in services promoting employment and 60,100 were in training. Of the jobseekers, 368,100 were unemployed jobseekers, which is 8,500 more than the year before. In January, 31,000 of unemployed jobseekers were fully laid off, which is 3,600 less than in December. Since January of the year before, the number of people fully laid off has decreased by 3,500. Furthermore, jobseekers on a reduced working week numbered 10,800, representing an increase of 1,200 from the year before.

Unemployed jobseekers

UNEMPLOYED JOBSEEKERS

The number of unemployed jobseekers increased in January

At the end of January, the number of unemployed jobseekers registered at the Employment and Economic Development Offices totalled 368,100, up 8,500 on the previous year. Compared with December, the number of unemployed jobseekers decreased by 9,800.

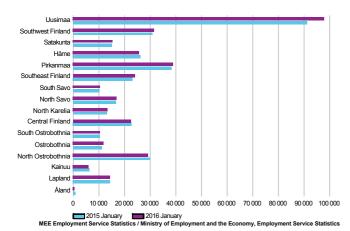

In January, 31,000 of unemployed jobseekers were fully laid off, which is 3,600 less than in December. Since January of the year before, the number of people fully laid off has decreased by 3,500.

The number of foreign citizens among unemployed jobseekers totalled 33,400, up 900 from January a year ago. Of these foreign unemployed jobseekers, EU/EEA citizens accounted for 10,800 at the end of January, up 700 from the year before.

Unemployed jobseekers by region

UNEMPLOYED JOBSEEKERS

by Centre for Economic Development, Transport and the Environment (ELY)

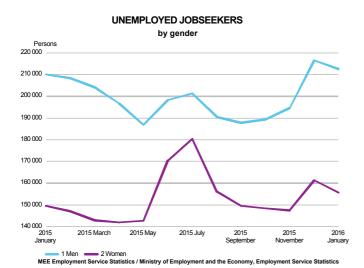

Unemployment decreased in five regions

Compared to the same period in the previous year, the number of unemployed jobseekers decreased in January in the areas of five Centres for Economic Development, Transport and the Environment (ELY Centres). The greatest changes were in Kainuu (-5%), Northern Ostrobothnia (-2%), Häme (-2%) and Lapland (-2%). Unemployment increased in all other ELY Centre areas; the most in Ostrobothnia (8%), Uusimaa (7%) and South-East Finland (4%).

Unemployed jobseekers by gender and age-group

Unemployment increased more among women

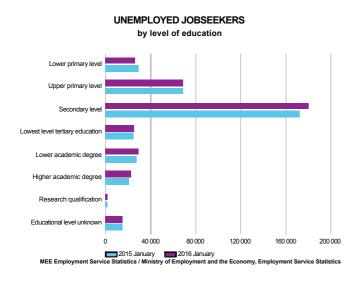

Of the unemployed jobseekers, 212,500 (58%) were men and 155,600 (42%) were women, indicating a decrease of 4,100 for men and 5,700 for women from the figures for December. Compared with January a year ago, the unemployment among men increased by 2,400 (1%) and among women by 6,100 (4%).

Unemployment grew only slightly among young people

At the end of January, unemployed jobseekers under 25 years of age numbered 48,300 representing an increase of 400 from January a year ago. Youth unemployment decreased from December by 4,000. For those under 20, the number of unemployed was 8,200. Among those over 50, the number of unemployed was 135,200, representing an increase of 3,500 on the year before. Among those over 55, the number of unemployed was 94,000, representing an increase of 2,800 on the year before.

Unemployed jobseekers by levels of education and occupational group

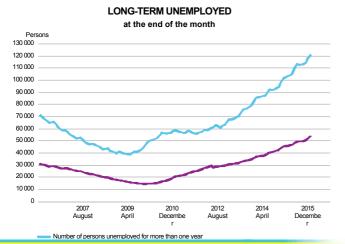

Unemployment increased especially among those with a higher level of education

Examined by level of education, the unemployment rose from January of last year at all other levels of education, except among those with lower level basic qualifications (-11%) and higher level basic qualifications (-0%); the increase was greatest among those with doctorate or equivalent level tertiary education (9%), lower-degree level tertiary education (7%) and higher-degree level tertiary education (6%).

Unemployment decreased in four occupational groups

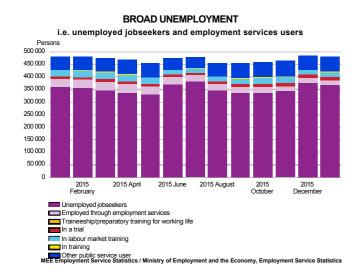

Examined by occupation, unemployment decreased in four groups from January of last year; the greatest decreases were in the groups of process and transport workers (-600) and construction, repair and manufacturing workers (-600). Unemployment increased the most in the groups of service and sales personnel (4,200), specialised experts (2,200) and skilled workers (1,600).

Long-term unemployment continued to grow

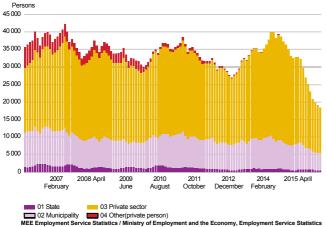

At the end of January, the number of long-term unemployed who have been unemployed without interruption for more than a year amounted to 120,700, up 19,200 on the previous year. Of the long-term unemployed, 70,900 were men and 49,800 were women. The number of men increased by 11,400 (19%) from the previous year and the number of women by 7,700 (18%). Long-term unemployed who had been unemployed without interruption for more than two years numbered 53,600, which is 8,200 more than a year ago.

Services

EMPLOYED THROUGH EMPLOYMENT SERVICES

at the end of the month by sector

Decrease in the number of persons covered by services

At the end of January, the number of persons covered by services included in the activation rate amounted to 114,700, down 7,100 on the previous year. Compared with December, the number of persons covered by such services increased by 7,100. The activation rate at the end of January was 23.8 %, which is 1.5 percentage points lower than a year earlier. In all, 4.4 % of the labour force was covered by these services.

Of those covered by services, the number of men was 54,200, down 3,300 on the previous year. The number of women covered by these services was 60,500, down 3,800 on the previous year.

Broad unemployment, or the total number of unemployed jobseekers and those covered by services, was 482,800 at the end of January. This is 1,400 more than a year earlier. The growth in broad unemployment was due to the increase in unemployed jobseekers.

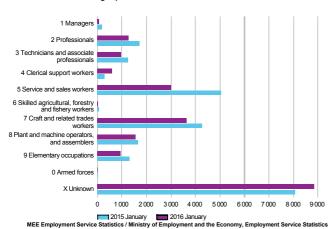

The number of placements decreased in all sectors

At the end of January, the number of persons claiming pay subsidies, employed by the State or receiving start-up grants totalled 18,300, which is 14,700 less than the year before. Of those employed, 3% were in government jobs, 27% in local government jobs and 70% in the private sector. Since January of the year before, the number of placements has decreased by 10% in government jobs, by 29% in local government jobs and by 50% in the private sector. Of those employed, 51% were men. Placements for men decreased by 7,200, and those for women by 7,500 from the previous year.

Labour market training, training and self-motivated studies

PERSONS IN LABOUR MARKET TRAINING

in target profession at the end of the month

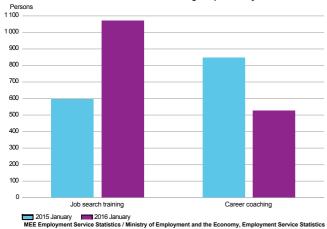

Decrease in labour market training

At the end of January, labour market training was attended by 20,900 students, down 2,900 on the previous year. Of the students, 10,800 were men and 10,000 were women. Compared to the situation a year ago, the number of men decreased by 1,200 and the number of women by 1,700. During January, 4,100 new students began labour market training, representing a decrease of 700 on the year before.

Based on target profession, the largest subgroup at the end of January within the category of 'unknown' were people in integration training (7,300), which is 900 more than the year before. In January, the number of people without a specified target profession was 1,000, which is 300 less than in January last year.

IN TRAINING

at the end of the month and during the previous year

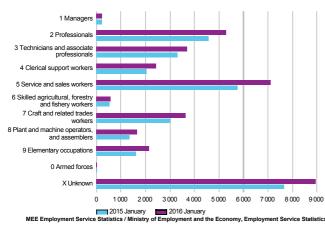

The number of persons in training increased slightly

At the end of January, 1,600 persons were in training, which is 200 more than the year before. The number of men in training was 900 and that of women 700. In January, work and training trials had a total of 300 participants less than a year earlier. The number of participants in job search training increased by 500 compared to January last year.

IN SELF-MOTIVATED STUDIES

in person's profession at the end of the month

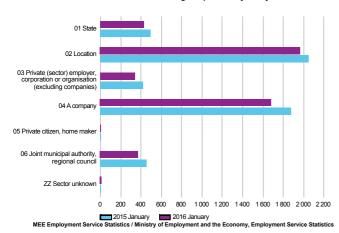

The number of people in self-motivated study increased from the previous year

Self-motivated studies supported by unemployment benefits were attended by a total of 35,700 people, representing an increase of 5,700 on the year before. The number of men receiving unemployment benefits for studies was 14,100, up 2,400 on the previous year. Among women, the number was 21,600, representing an increase of 3,300 on the year before. In the 'unknown' group, the profession of 7,000 persons remained unspecified, which is 1,200 more than the previous year.

Job alternation, rehabilitative work and trials

AS A JOB ALTERNATION SUBSTITUTE

at the end of the month and during the previous year by sector

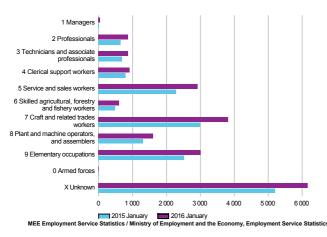

The number of job alternation substitutes decreased

A total of 4,800 persons were job alternation substitutes at the end of January, which is 500 less than a year earlier. Of these job alternation substitutes, a total of 1,500 were men, representing a decrease of 200 on the year before. The corresponding number for women was 3,300, down 300 on January the year before.

REHABILITATIVE WORK ACTIVITIES

at the end of the month and during the previous year

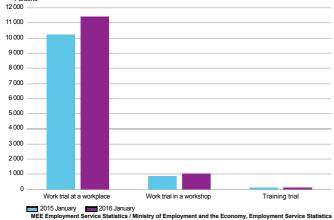

More participants in rehabilitative work activities than in the previous year

A total of 20,800 persons participated in rehabilitative work activities at the end of January, which is 3,900 more than a year earlier. Of the participants 12,000 were men and 8,800 were women. The number of men increased by 2,200 from the previous year, and the number of women by 1,700.

IN TRIALS

at the end of the month and during the previous year

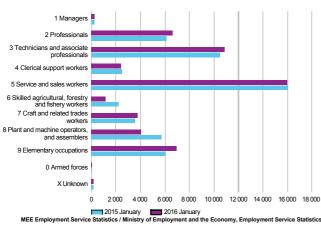

Participation in work and training trials increased from the previous year

Work and training trials had a total of 12,600 participants at the end of January, which is 1,400 more than the previous year. Of the participants, 5,600 were men and 7,000 were women. The number of men increased by 600, and the number of women by 700.

Jobs vacant

NEW JOB VACANCIES

Decrease in new job vacancies compared to last year

The number of new vacancies reported to Employment and Economic Development Offices during January totalled 52,100, which is 1,000 less than January in the previous year. In all, the number of unfilled vacancies at Employment and Economic Development Offices amounted to 80,100 in January, which is 2,800 more than a year ago. A total of 7,500 of these vacancies were filled during January, 3,500 of them through Employment and Economic Development Offices. The number of vacancies remaining unfilled at the end of January was 48,600, up 1,700 on the previous year.

The number of new vacancies had increased in six occupational groups; the greatest increases were in the groups other workers (900), specialised experts (500) and skilled workers (300). The number of new job vacancies has decreased in five occupational groups; the most in the groups of process and transport workers (-1,700) and farmers and forest workers (-1,000).

Information about the website

On this website you will find the latest statistics from the Ministry of Employment and the Economy's monthly Employment Bulletin. You can access a .pdf version of the current and previous months' Employment Bulletin by following the link on the right. The Employment Bulletin is based on the data from the MEE's Employment Service Statistics. The Ministry of Employment and the Economy compiles statistics on the clients of the Employment and economic development offices (TE offices), including registered job-seekers, labour market policy services, and job vacancies reported to TE offices by employers. The data is collected from the customer service registry (URA) used by the TE offices. This means that the data used by MEE Employment Service Statistics is completely registry-based. The statistical data covers all persons, services, and open vacancies in the aforementioned groups, as separately defined in the registry by the classifications and variables for the statistical period in question.

Owing to seasonal variations, the Employment Bulletin always includes a comparison with the corresponding month in the previous year. The descriptors used in the Bulletin are also available in a table format. The Employment Bulletins are published at the end of the subsequent calendar month. The official date of publication is announced in advance.
