Unemployed jobseekers by gender and age-group

**UNEMPLOYED JOBSEEKERS
by gender**

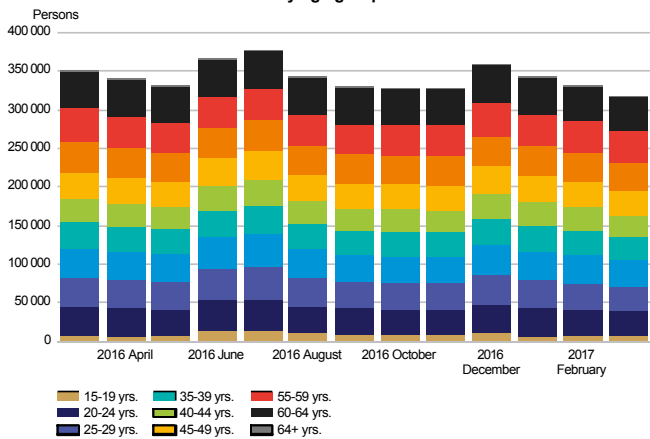

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased considerably more among men than women

Of the unemployed jobseekers, 180,500 (57%) were men and 136,700 (43%) were women, indicating a decrease of 7,900 for men and 7,000 for women from the figures for February. Compared with March a year ago, the unemployment among men decreased by 23,500 (-12%) and among women by 10,200 (-7%).

**UNEMPLOYED JOBSEEKERS
by age group**

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

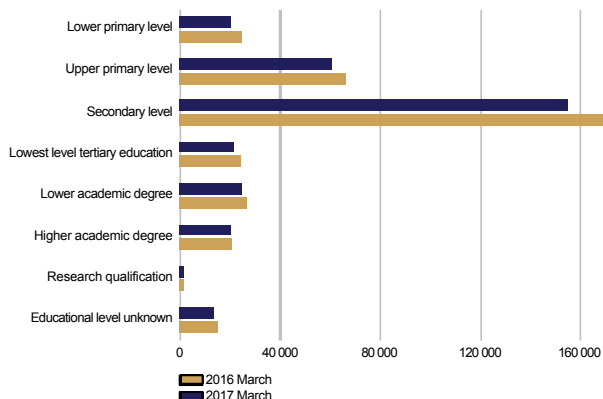

Unemployment decreased in all age groups

At the end of March, unemployed jobseekers under 25 years of age numbered 38,600, representing a decrease of 6,100 from March a year ago. Youth unemployment decreased from February by 2,200. For those under 20, the number of unemployed was 6,700. Among those over 50, the number of unemployed was 121,900, representing a decrease of 9,400 on the year before. Among those over 55, the number of unemployed was 85,600, representing a decrease of 6,500 on the year before.

Unemployed jobseekers by levels of education and occupational group

**UNEMPLOYED JOBSEEKERS
by level of education**

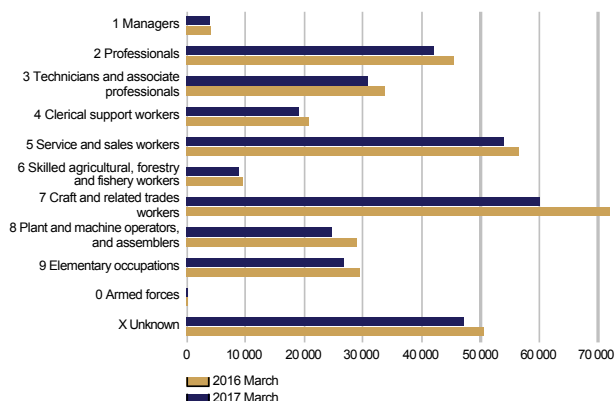

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased at all levels of education

Examined by level of education, unemployment decreased from March last year at all levels of education; the decrease was greatest among those with lower level basic qualifications (-19%), lowest level of tertiary education (-10%), upper secondary level of education (-9%) and higher level basic qualifications (-9%).

**UNEMPLOYED JOBSEEKERS
by occupational group**

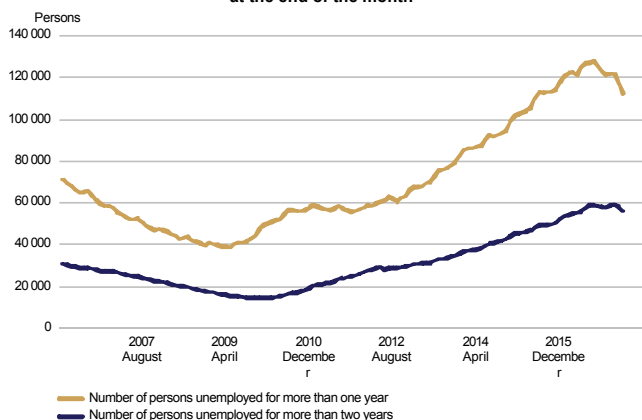

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased in all occupational groups

Examined by occupation, unemployment decreased in all groups from March last year; the most in the groups of construction, repair and manufacturing workers (-12,100), process and transport workers (-4,200), specialised experts (-3,600) and 'unknown' (-3,300).

**LONG-TERM UNEMPLOYED
at the end of the month**

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Em

Long-term unemployment continued to fall

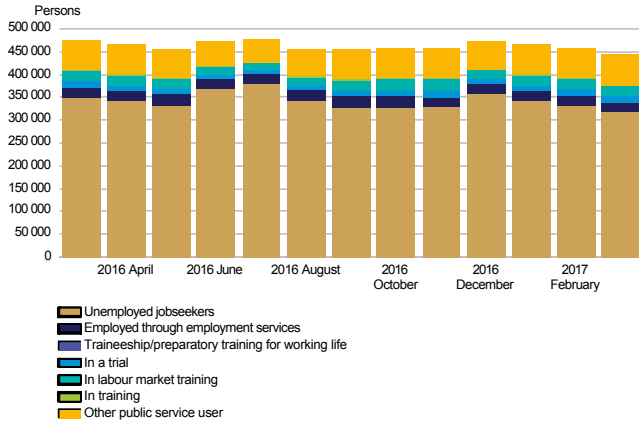

At the end of March, the number of long-term unemployed who had been unemployed without interruption for more than a year amounted to 112,200, down 10,400 from the previous year. Of the long-term unemployed, 65,200 were men and 47,000 were women. The number of men decreased by 6,700 (-9%) from the previous year and the number of women by 3,700 (-7%). Long-term unemployed who had been unemployed without interruption for more than two years numbered 56,100, which is 1,400 more than a year ago.

Services

BROAD UNEMPLOYMENT

i.e. unemployed jobseekers and employment services users

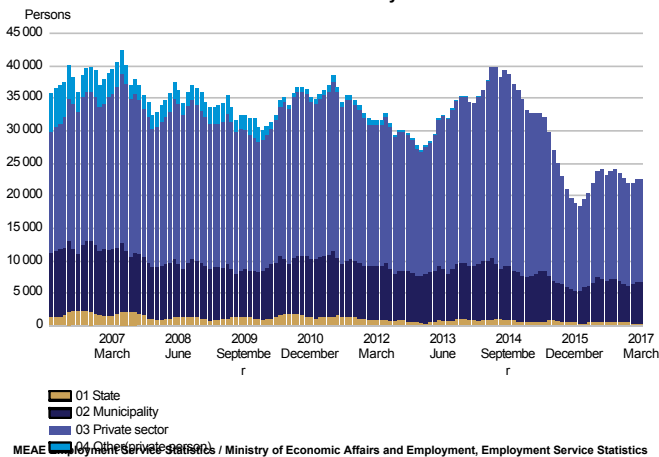

An increase in the number of persons covered by services

At the end of March, the number of persons covered by services included in the activation rate amounted to 126,600, up 2,700 on the previous year. Compared with February, the number of persons covered by such services increased by 600. The activation rate at the end of March was 28.5%, which is 2.4 percentage points higher than a year earlier. In all, 4.7% of the labour force were covered by these services.

Of those covered by services, the number of men was 60,900, up 2,100 on the previous year. The number of women covered by these services was 65,700, up 700 on the previous year.

Broad unemployment, or the total number of unemployed jobseekers and those covered by services, was 443,900 at the end of March. This is 31,000 less than a year earlier. The decrease in broad unemployment was due to a decrease in the number of unemployed jobseekers.

EMPLOYED THROUGH EMPLOYMENT SERVICES at the end of the month by sector

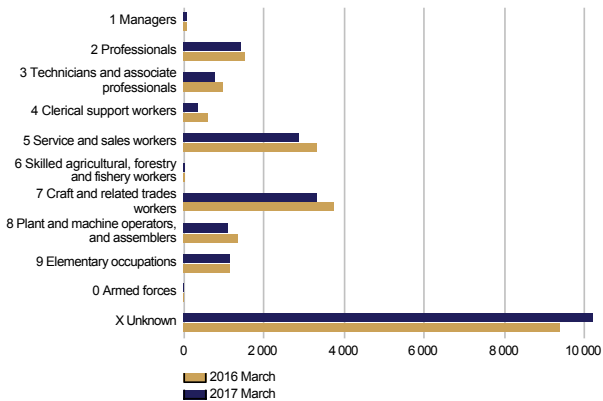

The number of placements increased in local government and the private sector

At the end of March, the number of persons claiming pay subsidies, employed by the State or receiving start-up grants totalled 22,600, which is 2,000 more than the year before. Of those employed, 2% were in government jobs, 28% in local government jobs and 70% in the private sector. Since March last year, the number of placements has decreased by 14% in government jobs and increased by 10% in local government jobs and by 11% in the private sector. Of those employed, 50% were men. Placements for men increased by 800, and those for women by 1,200 from the previous year.

Labour market training, training and self-motivated studies

PERSONS IN LABOUR MARKET TRAINING
in target profession at the end of the month

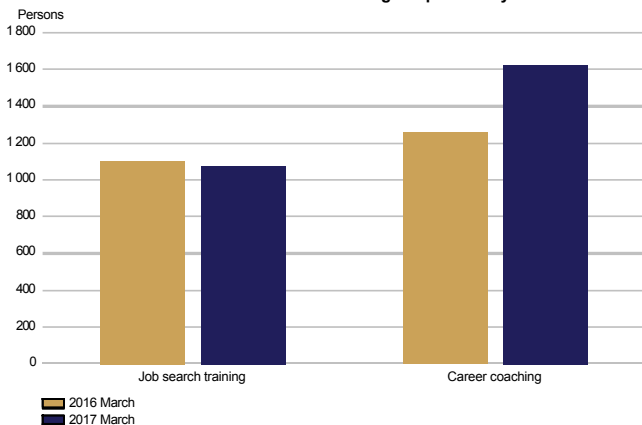

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of persons in labour market training decreased

At the end of March, labour market training was attended by 21,300 students, down 800 on the previous year. Of the students, 11,400 were men and 10,000 were women. Compared to the situation a year ago, the number of men decreased by 100 and the number of women by 700. During March, 6,200 new students began labour market training, representing an increase of 1,900 on the year before.

Based on target occupation, the largest subgroup within the category of 'unknown' were people in integration training (9,300), which is 1,700 more than the year before. In March, the number of people without a specified target occupation was 100, which is 900 less than in March last year.

IN TRAINING
at the end of the month and during the previous year

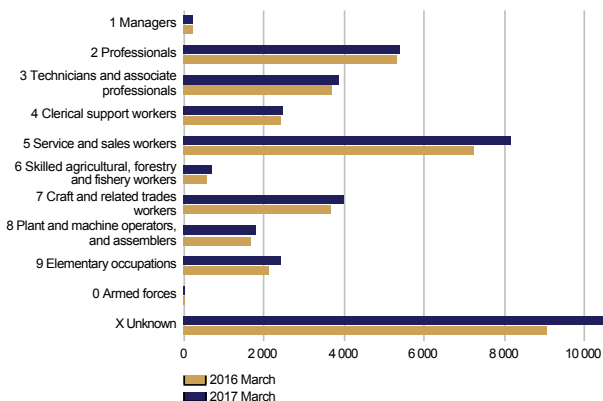

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of persons in training increased

At the end of March, 2,700 persons were in training, which is 300 more than the year before. The number of men in training was 1,400 and of women 1,300. Work and training trials had 1,600 participants, which is 400 more than a year earlier. The number of participants in job search training remained the same as the previous year.

IN SELF-MOTIVATED STUDIES
in person's profession at the end of the month

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

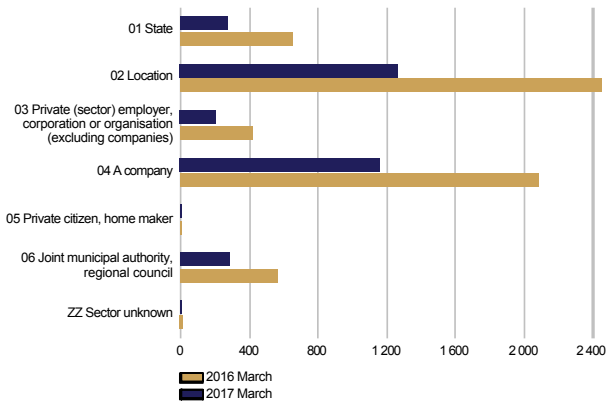

The number of people in self-motivated study increased from the previous year

Self-motivated studies supported by unemployment benefits were attended by a total of 39,800 people, representing an increase of 3,800 on the year before. The number of men receiving unemployment benefits for studies was 16,300, up 2,000 on the previous year. Among women, the number was 23,600, representing an increase of 1,800 on the year before. Occupation was undetermined in case of 8,800 persons in the group of 'unknown', up 1,600 on the previous year.

Job alternation, rehabilitative work and trials

AS A JOB ALTERNATION SUBSTITUTE
at the end of the month and during the previous year by sector

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of job alternation substitutes decreased

A total of 3,200 persons were job alternation substitutes at the end of March, which is 3,000 less than a year earlier. Of the substitutes, 1,000 were men and 2,200 were women. The number of men decreased by 1,000, and the number of women by 2,000.

REHABILITATIVE WORK ACTIVITIES
at the end of the month and during the previous year

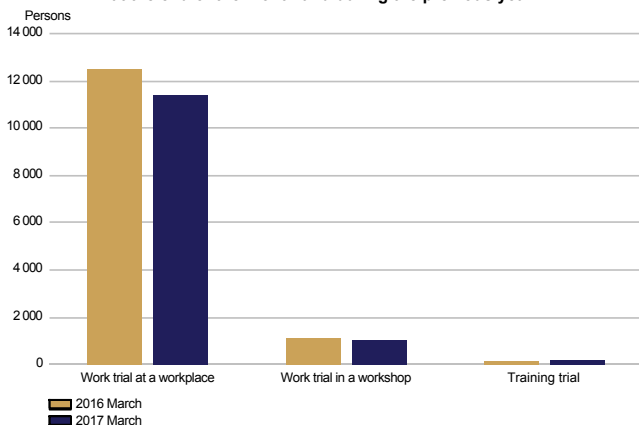

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

More participants in rehabilitative work activities than in the previous year

A total of 24,400 persons participated in rehabilitative work activities at the end of March, which is 1,500 more than a year earlier. Of the participants 13,800 were men and 10,600 were women. Compared to the situation a year ago, the number of men increased by 700 and the number of women by 800.

IN TRIALS
at the end of the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

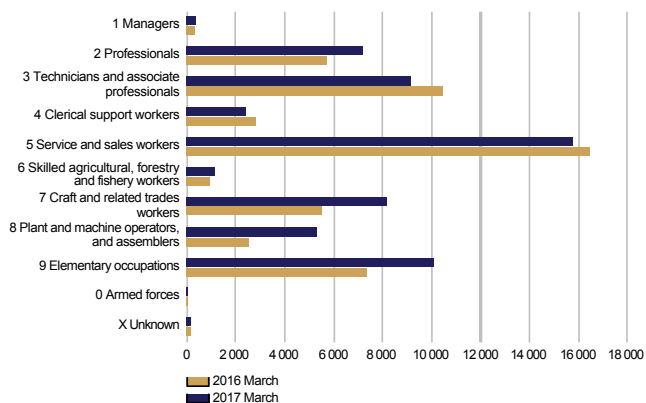

Participation in work and training trials decreased

Work and training trials had a total of 12,600 participants at the end of March, which is 1,100 less than the year before. Of the participants, 5,600 were men and 7,000 were women. The number of men decreased by 600, and the number of women by 500.

Jobs vacant

NEW JOB VACANCIES
during the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Increase in the number of new vacancies

The number of new vacancies reported to Employment and Economic Development Offices during March totalled 59,700, which is 7,500 more than in March the previous year. In all, the number of unfilled vacancies at Employment and Economic Development Offices amounted to 123,300 in March, which is 14,600 more than a year ago. A total of 11,900 of these vacancies were filled during March, 7,200 of them through Employment and Economic Development Offices. A total of 53,600 vacancies were closed for applications because the application period had ended or because there was a sufficient number of applicants. In addition, a total of 2,000 vacancies were cancelled and 1,600 vacancies could not be filled. The number of vacancies remaining unfilled at the end of March was 56,400, up 9,000 on the previous year.

The number of new vacancies had increased for seven occupational groups; the increase was the highest in the groups of process and transport workers (2,800), other workers (2,700), construction, repair and manufacturing workers (2,700) and specialised experts (1,500). The number of new job vacancies had decreased most in the category of skilled workers (-1,300), service and sales personnel (-700) and office and customer service workers (-400).

Information about the website

On this website you will find the latest statistics from the Ministry of Economic Affairs and Employment's monthly Employment Bulletin. You can access a .pdf version of the current and previous months' Employment Bulletin by following the link on the right. The Employment Bulletin is based on the data from the MEAE's Employment Service Statistics. The Ministry of Economic Affairs and Employment compiles statistics on the clients of the Employment and economic development offices (TE offices), including registered job-seekers, labour market policy services, and job vacancies reported to TE offices by employers. The data is collected from the customer service registry (URA) used by the TE offices. This means that the data used by MEAE Employment Service Statistics is completely registry-based. The statistical data covers all persons, services, and open vacancies in the aforementioned groups, as separately defined in the registry by the classifications and variables for the statistical period in question.

Owing to seasonal variations, the Employment Bulletin always includes a comparison with the corresponding month in the previous year. The descriptors used in the Bulletin are also available in a table format. The Employment Bulletins are published at the end of the subsequent calendar month. The official date of publication is announced in advance.
