Unemployed jobseekers by gender and age-group

UNEMPLOYED JOBSEEKERS
by gender

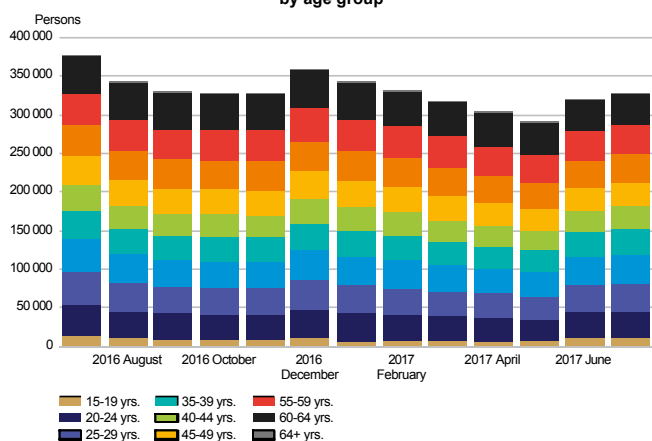

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased considerably more among men than women

Of the unemployed jobseekers, 168,100 (51%) were men and 161,000 (49%) were women, indicating an increase of 1,100 for men and 7,800 for women compared to the figures in June. Compared with July a year ago, the unemployment among men decreased by 30,200 (-15%) and among women by 19,100 (-11%).

UNEMPLOYED JOBSEEKERS
by age group

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

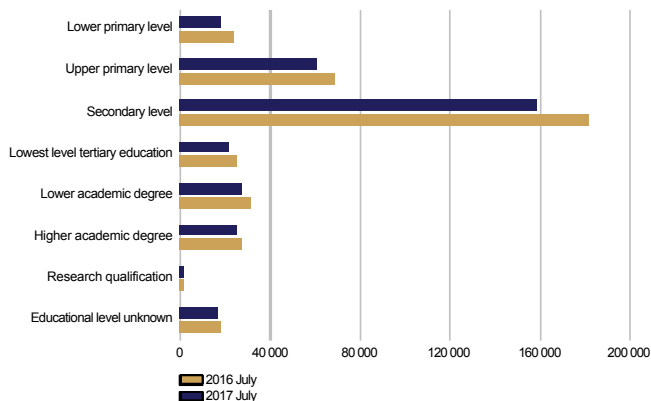

Unemployment decreased in all age groups

At the end of July, unemployed jobseekers under 25 years of age numbered 45,700, representing a decrease of 9,100 from July a year ago. Youth unemployment decreased from June by 100. For those under 20, the number of unemployed was 11,200. Among those over 50, the number of unemployed was 115,700, representing a decrease of 15,600 on the year before. Among those over 55, the number of unemployed was 80,300, representing a decrease of 11,300 on the year before.

Unemployed jobseekers by levels of education and occupational group

**UNEMPLOYED JOBSEEKERS
by level of education**

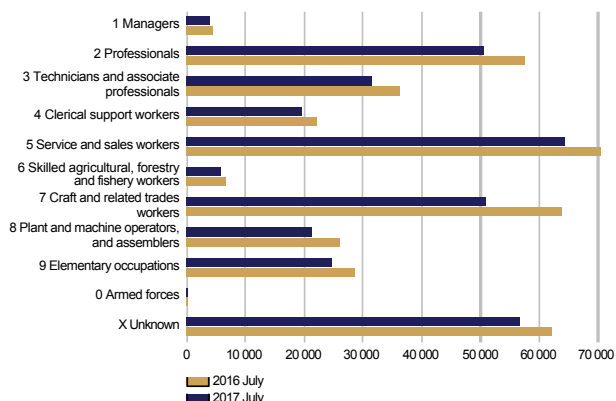

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased at all levels of education

Examined by level of education, unemployment decreased from July last year at all levels of education; the decrease was greatest among those with lower level basic qualifications (-23%), lowest level of tertiary education (-14%), lower-degree level tertiary education (-13%) and upper secondary level of education (-13%).

**UNEMPLOYED JOBSEEKERS
by occupational group**

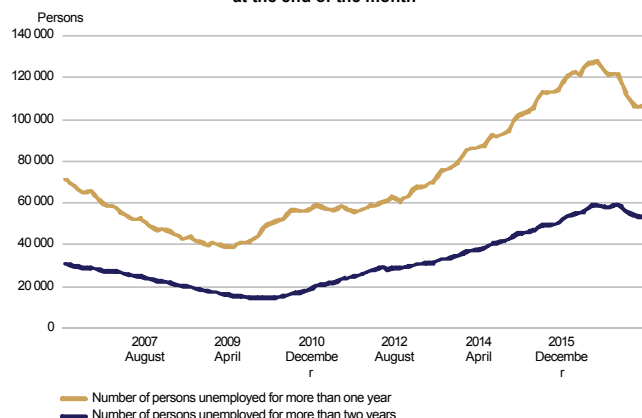

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Unemployment decreased in all occupational groups

Examined by occupation, unemployment decreased in all groups from July last year; the most in the groups of craft and related trades workers (-13,000), professionals (-6,900), service and sales workers (-6,300) and 'unknown' (-5,500).

**LONG-TERM UNEMPLOYED
at the end of the month**

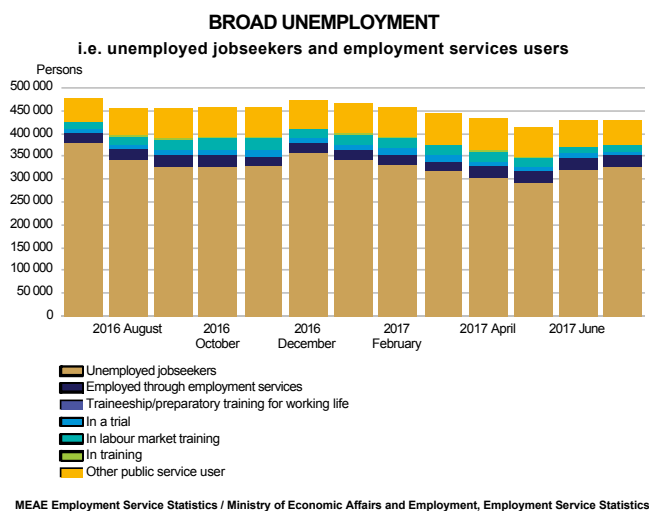

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Em

Decrease in long-term unemployment

At the end of July, the number of long-term unemployed who had been unemployed without interruption for more than a year amounted to 106,100, down 21,000 on the previous year. Of the long-term unemployed, 60,000 were men and 46,200 were women. The number of men decreased by 12,900 (-18%) from the previous year and the number of women by 8,100 (-15%). Long-term unemployed who had been unemployed without interruption for more than two years numbered 53,200, which is 5,600 less than a year ago.

Services

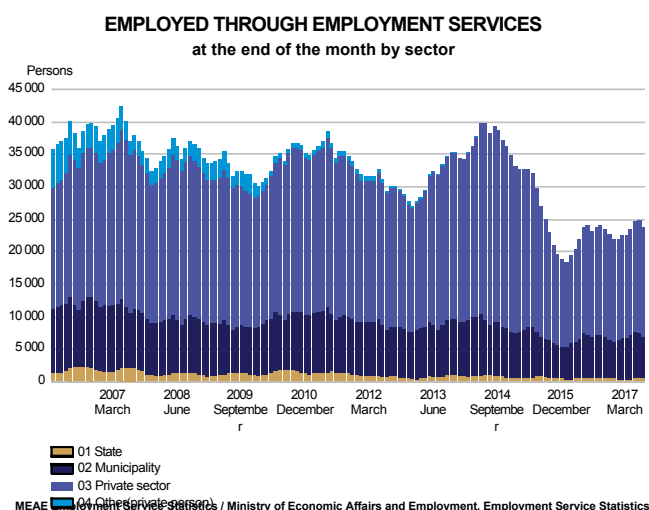

Increase in the number of persons covered by services

At the end of July, the number of persons covered by services included in the activation rate amounted to 99,800, up 400 on the previous year. Compared with June, the number of persons covered by such services decreased by 8,500. The activation rate at the end of July was 23.3%, which is 2.5 percentage points higher than a year earlier. In all, 3.6% of the labour force were covered by these services.

Of those covered by services, the number of men was 50,200, up 200 on the previous year. The number of women covered by these services was 49,600, also up 200 on the previous year.

Broad unemployment, or the total number of unemployed jobseekers and those covered by services, was 428,800 at the end of July. This is 49,000 less than a year earlier. The decrease in broad unemployment was due to a decrease in the number of unemployed jobseekers.

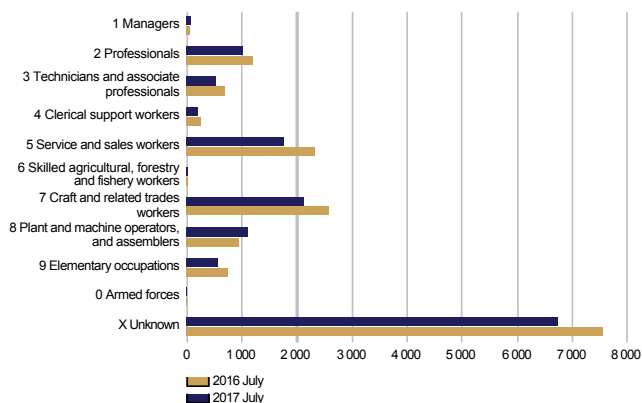

The number of placements increased in local government and the private sector

At the end of July, the number of persons claiming pay subsidies, employed by the State or receiving start-up grants totalled 23,800, which is 500 more than the year before. Of those employed, 2% were in government jobs, 28% in local government jobs and 70% in the private sector. Since July last year, the number of placements has decreased by 23% in government jobs and increased by 5% in local government jobs and by 2% in the private sector. Of those employed, 54% were men. Placements for men decreased by 100, and those for women increased by 600 from the previous year.

Labour market training, training and self-motivated studies

PERSONS IN LABOUR MARKET TRAINING
in target profession at the end of the month

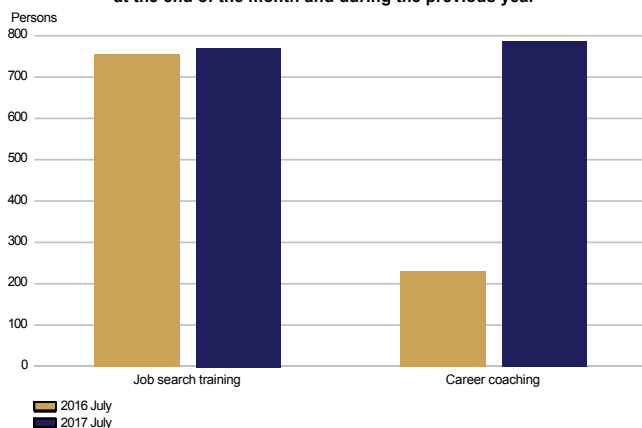

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of persons in labour market training decreased

At the end of July, labour market training was attended by 14,100 students, down 2,200 on the previous year. Of the students, 7,500 were men and 6,600 were women. Compared to the situation a year ago, the number of men decreased by 1,000 and the number of women by 1,100. During July, 900 new students began labour market training, representing an increase of 400 on the year before.

Based on target occupation, the largest subgroup within the category of 'unknown' were people in integration training (6,400), which is 300 more than the year before. In July, the number of people without a specified target occupation was 100, which is 800 less than in July last year.

IN TRAINING
at the end of the month and during the previous year

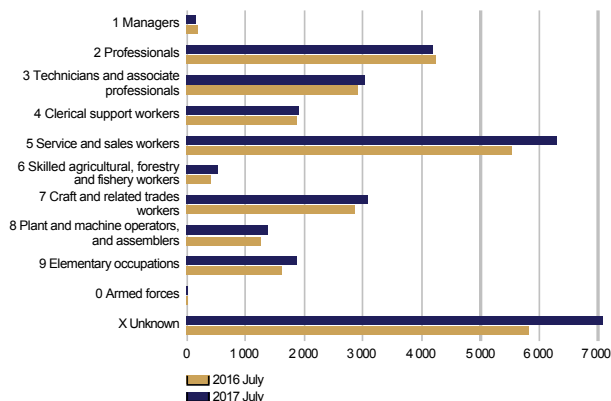

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of persons in training increased

At the end of July, 1,600 persons were in training, which is 600 more than the year before. The number of men in training was 800 and of women 700. Career coaching had 800 participants, which is 600 more than a year earlier. The number of participants in job search training was unchanged from the previous year.

IN SELF-MOTIVATED STUDIES
in person's profession at the end of the month

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

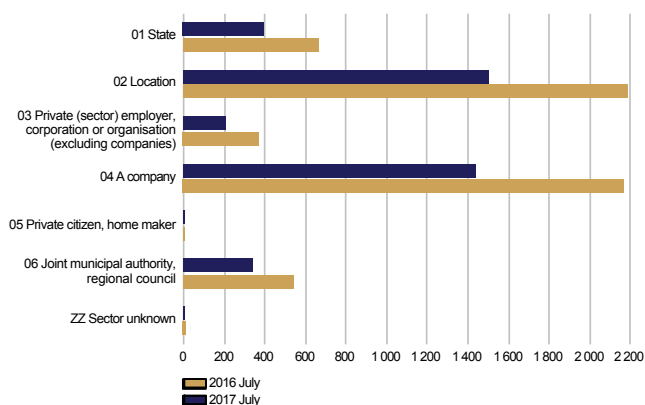

The number of people in self-motivated study increased from the previous year

Self-motivated studies supported by unemployment benefits were attended by a total of 29,500 people, representing an increase of 2,700 on the year before. The number of men receiving unemployment benefits for studies was 12,000, up 1,300 on the previous year. Among women, the number was 17,500, representing an increase of 1,400 on the year before. Occupation was undetermined in case of 5,700 persons in the group of 'unknown', up 1,100 on the previous year.

Job alternation, rehabilitative work and trials

AS A JOB ALTERNATION SUBSTITUTE
at the end of the month and during the previous year by sector

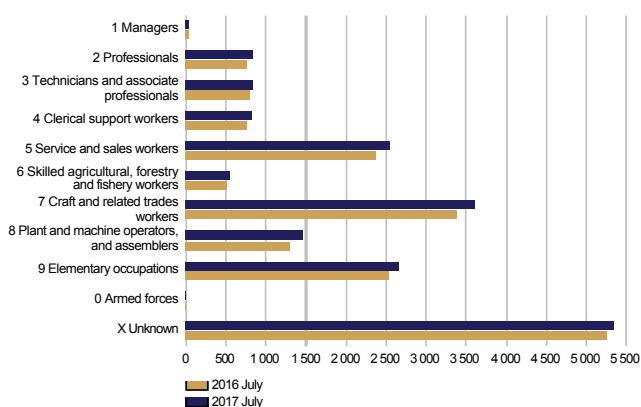

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

The number of job alternation substitutes decreased

A total of 3,900 persons were job alternation substitutes at the end of July, which is 2,100 less than a year earlier. Of the substitutes, 1,300 were men and 2,600 were women. The number of men decreased by 700, and the number of women by 1,400.

REHABILITATIVE WORK ACTIVITIES
at the end of the month and during the previous year

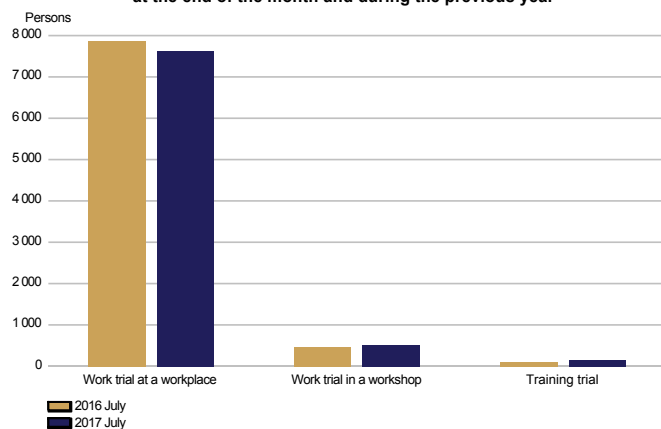

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

More participants in rehabilitative work activities than in the previous year

A total of 18,700 persons participated in rehabilitative work activities at the end of July, which is 1,000 more than a year earlier. Of the participants 11,200 were men and 7,500 were women. The number of both men and women increased by 500 from the previous year.

IN TRIALS
at the end of the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

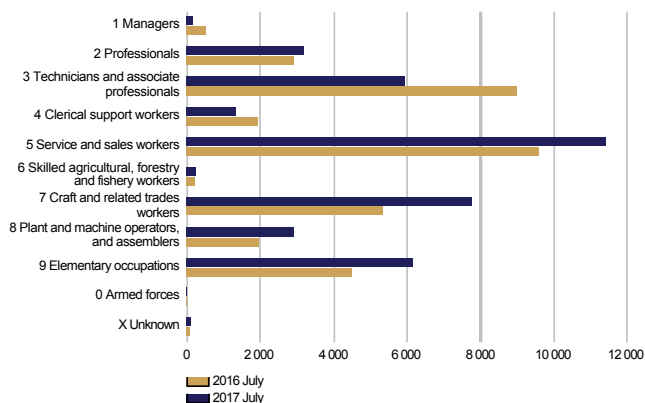

Participation in work and training trials decreased

Work and training trials had a total of 8,300 participants at the end of July, which is 200 less than the year before. Of the participants, 4,600 were men and 3,700 were women. The number of men remained the same and the number of women decreased by 200 on the previous year.

Jobs vacant

NEW JOB VACANCIES
during the month and during the previous year

MEAE Employment Service Statistics / Ministry of Economic Affairs and Employment, Employment Service Statistics

Increase in the number of new vacancies

The number of new vacancies reported to Employment and Economic Development Offices during July totalled 39,200, which is 3,200 more than in July last year. In all, the number of unfilled vacancies at Employment and Economic Development Offices amounted to 75,200 in July, which is 7,500 more than a year ago. A total of 6,400 of these vacancies were filled during July, 3,600 of them through Employment and Economic Development Offices. A total of 30,100 vacancies were closed for applications because the application period had ended or because there was a sufficient number of applicants. In addition, a total of 2,400 vacancies were cancelled and 900 vacancies could not be filled. The number of vacancies remaining unfilled at the end of July was 38,300, up 5,900 on the previous year.

The number of new vacancies had increased for seven occupational groups; the greatest increases were in the groups of craft and related trades workers (2,400), service and sales workers (1,800), other workers (1,600) and plant and machine operators, and assemblers (1,000). The number of new job vacancies had decreased most in the category of technicians and associate professionals (-3,100) and clerical support workers (-600).

Information about the website

On this website you will find the latest statistics from the Ministry of Economic Affairs and Employment's monthly Employment Bulletin. You can access a .pdf version of the current and previous months' Employment Bulletin by following the link on the right. The Employment Bulletin is based on the data from the MEAE's Employment Service Statistics. The Ministry of Economic Affairs and Employment compiles statistics on the clients of the Employment and economic development offices (TE offices), including registered job-seekers, labour market policy services, and job vacancies reported to TE offices by employers. The data is collected from the customer service registry (URA) used by the TE offices. This means that the data used by MEAE Employment Service Statistics is completely registry-based. The statistical data covers all persons, services, and open vacancies in the aforementioned groups, as separately defined in the registry by the classifications and variables for the statistical period in question.

Owing to seasonal variations, the Employment Bulletin always includes a comparison with the corresponding month in the previous year. The descriptors used in the Bulletin are also available in a table format. The Employment Bulletins are published at the end of the subsequent calendar month. The official date of publication is announced in advance.
